CRANE OPERATOR

OVERHEAD CRANE OPERATOR & RIGGING TRAIN-THE-TRAINER

#808T 3 DAYS **MAXIMUM CLASS SIZE: 10** **HANDS-ON TRAINING**

Do you have so many operators within your facility that having an outside contractor come in to conduct all the operator training would not be cost effective? Using an experienced operator to conduct training is a common practice in industry. Will that individual pass on any bad habits in the process? This course will give the potential trainers not only the requisite information but also instructional skills for presenting information before groups of people.

GENERAL DESCRIPTION

This course will use either the Cab and Floor Crane Operator Course #808 or the Floor Crane Operator Course #808A as desired. These courses cover all the OSHA/ASME requirements for overhead crane operation including the reasons behind the requirements. They begin with the fundamentals such as identification of major crane components and focuses on the safe and proper operation of the crane.

COURSE OUTLINE

- Major crane components
- Safety devices
- Recommended operating procedures
- Communications
- Safe operating practices
- 20-minute training presentation

INSTRUCTORS KIT

You will receive the following:

- PowerPoint Presentation on USB including:

-Written safety program for your Safety Manual

- Instructors Manual with Course Outline

- Example Final exam with answer key

- Hand Signal Poster
- One student course kit (see below)

PRICE FOR ADDITIONAL STUDENT KIT

- 808T-K (12 Copies): $520.00
- Sold only to Konecranes Trained instructors
